

Carruth's Space

Carruth's Space is a website designed for Alec Carruth to showcase his skills and experience to potential employers

Getting noticed by an employer and standing out is half the battle when it comes to locating a job after college. With Carruth's Space being completed I will have a place to put all of my achievements, grades, job experience, projects and any other information about myself all in one area and easy to maintain. The website will have multiple pages to each display a certain aspect about me to employers.

Personas

Steven the Boss

Head of company
looking for employees

Jane the Recruiter

Smiling women at
career fair talking to
100's of kids a day

Susan the Relative

The nagging relative
that asks all the ques-
tions at holidays
